

Reliable and Interchangeable

Perfect for slurries, corrosive fluids, chemical feed, and high lift applications

Eccentric Pumps manufactures completely interchangeable hose elements for your heavy duty hose pumps. In addition to fitting our own designs, Eccentric Pumps hoses are drop in replacements for Watson-Marlow Bredel, Verder and other hose pump manufacturers.

Performance Specifications

- "Made in America" Technology
- Consistent manufacturing tolerances
- High burst strength
- Reduced friction operation
- Volumetric repeatability
- Natural Rubber, EPDM, Buna, Hypalon®, Viton®, Neoprene and other elastomers available

Construction Details

- Proprietary rubber compounding
- Superior strength fabrics
- Precision fabrication of the tube, fabric layers, and cover
- Improved concentricity between the tube and cover
- Predictable suction performance
- Low modulus rubber
